

## VPN Connection OS X.2 Jaguar Setup

1. Open the **Applications** on your Hard Drive and look for the **Internet Connect** Icon pictured below:

2. Open Internet Connect. If you have a modem or Airport connection, go to **File, New VPN Connection**, then proceed to Step 4.

Otherwise, the following screen will appear:

3. Choose **Use VPN**, then **Continue**.

4. The screen below will then appear. The server address is **199.18.239.3** and your account name and password are the same as your login for your email.

5. Now you may go to **Connect to Server** and access your network locations.
